

PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience in **Java, Spring Boot, JavaScript, React.js, MySQL, JDBC, REST APIs, and full-stack development**. Developed web applications involving frontend interfaces, backend APIs, database integration, authentication, and CRUD operations. Built an Insider Threat Detection System and a Java-based Hospital Management System with **6 modules, 6 APIs, and 6 MySQL tables**. Seeking opportunities as a **Java Full Stack Developer**.

SKILLS

Programming Languages: Java, JavaScript, Python, SQL

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap

Backend: Java, Spring Boot, REST APIs, JDBC, Java HTTP Server APIs, Node.js, FastAPI

Database: MySQL

Core Concepts: Object-Oriented Programming, Data Structures, CRUD Operations, Authentication, Role-Based Access, RESTful Web Services

Tools: Git, GitHub, Visual Studio Code, MySQL Workbench, Live Server

EDUCATION

N.B.K.R Institute of Science and Technology

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

Tirupati, Andhra Pradesh

EXPERIENCE

Full Stack Web Development Intern

Jun 2025 – Aug 2025

CODTECH IT SOLUTIONS PRIVATE LIMITED

Online

- Completed an **8-week** Full Stack Web Development internship covering frontend, backend, databases, and REST API development.
- Worked with HTML5, CSS3, JavaScript, React.js, Node.js, Java, Python, MySQL, MongoDB, PostgreSQL, Git, and REST APIs.

Cybersecurity & Ethical Hacking Intern

Dec 2025 – Apr 2026

INNOVATE by HEXAIND

Online

- Completed a **16-week** Cybersecurity and Ethical Hacking internship.
- Developed and submitted a **Blockchain-Based Voting System** project.

PROJECTS

Insider Threat Detection System

Feb 2026 – Apr 2026

React.js, Python, FastAPI, MySQL, Pandas, NumPy, Scikit-learn

- Developed a web-based cybersecurity application analyzing login activity, file access, device usage, email behavior, and system events to detect suspicious user behavior.
- Built a React.js frontend and Python FastAPI backend for behavioral data processing and security insights.
- Applied Pandas, NumPy, and Scikit-learn for behavioral analysis and potential insider-threat detection.
- Implemented risk scoring, early warning alerts, administrator dashboards, and MySQL data storage.

Hospital Management System

Jun 2026 – Aug 2026

Java, JavaScript, HTML5, CSS3, MySQL, JDBC, REST APIs

- Developed a full-stack hospital management application with **6 modules**: Admin, Doctor, Patient, Appointments, Billing, and Medical Reports.
- Implemented **6 Java APIs** for doctor, patient, appointment, billing, patient login, and report management.
- Integrated **6 MySQL tables** with Java using JDBC for authentication, patient records, appointments, billing, and reports.
- Implemented authentication, role-based access, CRUD operations, appointment management, billing, and medical report workflows.

CERTIFICATIONS

CODTECH IT SOLUTIONS – Python Programming

NPTEL – Privacy and Security in Online Social Media

IBM SkillsBuild – Artificial Intelligence Fundamentals

INFOSYS – Cloud Computing

QUBITECH – Quantum Computing
