

SKILLS

Programming Languages: Java, Python, JavaScript, SQL

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Java, Spring Boot, Python, REST APIs, Java HTTP Server APIs, JDBC

Database: MySQL

Machine Learning: Pandas, NumPy, Scikit-learn, Random Forest

Tools: Git, GitHub, Visual Studio Code, MySQL Workbench, Live Server

EDUCATION

N.B.K.R Institute of Science and Technology

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

Tirupati, Andhra Pradesh

WORK EXPERIENCE

Cybersecurity & Ethical Hacking Intern

Dec 2025 – Apr 2026

INNOVATE by HEXAIND

Online

- Completed a 16-week internship in Cybersecurity and Ethical Hacking covering security-focused application development.
- Submitted a Blockchain-Based Voting System project during the internship program.
- Completed the internship across a 16-week period from December 2025 to April 2026.

Full Stack Web Development Intern

Jun 2025 – Aug 2025

CODTECH IT SOLUTIONS PRIVATE LIMITED

Online

- Completed an 8-week Full Stack Web Development internship using HTML5, CSS3, JavaScript, React.js, Node.js, and REST APIs.
- Practiced backend and database development using Python, Java, MySQL, MongoDB, PostgreSQL, and Git-based development workflows.
- Applied frontend and backend technologies across an 8-week internship focused on full-stack web development.

PROJECTS

Insider Threat Detection System

Feb 2026 – Apr 2026

React.js, Python, FastAPI, MySQL, Pandas, NumPy, Scikit-learn

- Analyzed organizational activity data including login activity, file access, device usage, email behavior, and system events to detect suspicious user behavior.
- Implemented machine learning approaches including Random Forest for threat classification and behavioral analysis across organizational activity data.
- Generated user risk scores, early warning alerts, threat summaries, and behavioral insights through a web-based administrator dashboard.
- Stored behavioral features, aggregated activity logs, risk scores, alerts, and prediction history using MySQL.

Hospital Management System

Jun 2026 – Aug 2026

HTML5, CSS3, JavaScript, Java, MySQL, JDBC, Java HTTP Server APIs

- Engineered a hospital management application containing **6 modules** for Admin, Doctor, Patient, Appointments, Billing, and Medical Reports.
- Implemented **6 Java APIs** for patient, doctor, appointment, billing, patient login, and report management.
- Connected **6 MySQL database tables** through JDBC for authentication, patient records, appointments, billing, and medical reports.

CERTIFICATIONS

CODTECH IT SOLUTIONS: Python Programming

NPTEL: Privacy and Security in Online Social Media

IBM SkillsBuild: Artificial Intelligence Fundamentals

INFOSYS: Cloud Computing

QUBITECH: Quantum Computing
